

Toyo Denki Seizo K.K. Contributes to the Development of Social Infrastructure Systems

Based on a firm management foundation, we help build social infrastructure systems that are considerate of the global environment through the global provision of high-quality products that integrate our exceptional motor drive technologies since establishment with our breakthrough advanced technologies.

Toyo Denki Seizo K.K. has contributed with new technologies to the development of railways, industries and social infrastructure in Japan and the world. Toyo Denki Seizo K.K. was founded in 1918 in an aim to “domestically manufacture electrical equipment for rail vehicles” and has celebrated the 100th anniversary of its founding in June 2018.

We are developing businesses in transportation, industry and information equipment sectors, and all the three sectors shares a high relevancy to society and the public interest. We contribute to the development of industry and enrichment of people’s lives through our manufacturing expertise by leveraging high technological skills.

We will continue to promote global development and aggressively work to develop advanced technologies befitting the name of “Toyo as a technology company,” promote transfer of expertise and skills as well as training of human resources for supporting the development of advanced technologies, and create new businesses. Furthermore, through ensuring compliance and enhancing governance, we will strive to build a solid presence in the world as a manufacturer trusted by all stakeholders.
