#### **Qualitative Information, Financial Statements, and Other**

#### 1. Qualitative Information regarding Consolidated Operating Results

During the first quarter of fiscal 2008, the fiscal year ending May 31, 2009, the corporate sector exhibited increasingly conspicuous signs of a cautious approach toward capital investment. In addition to the marked impact of the sub-prime loan crisis in the United States from the beginning of the year, this cautious approach was attributable to further hikes in the prices of crude oil and other raw materials as well as sudden fluctuations in foreign currency exchange rate markets. As a result, decreases in personal consumption and capital investment became increasingly evident from the first quarter of the fiscal year.

Against the backdrop of this harsh economic environment, the Toyo Denki Group is working diligently in the final year of its Innovation 90 Plan to achieve established objectives. The Group's performance in the first quarter of the fiscal year under review was as follows.

- (a) Results in connection with orders received were mixed. Despite an increase in the Information Systems segment, orders received declined in both the Transportation Business and Industrial Systems segments. Accounting for these factors, overall orders received amounted to 8,962 million yen, a decrease of 14.3% compared with the corresponding period of the previous fiscal year.
- (b) During the period under review, sales grew in the Transportation Business segment. This was offset, however, by the decline in sales in each of the Industrial Systems and Information Systems segments. As a result, sales edged down 2.9% year on year to 6,605 million yen.
- (c) From a profit perspective, operating income dropped 58.8% compared with the corresponding period of the previous fiscal year to 47 million yen. Despite manufacturing efficiency improvements in the Transportation Business segment, this was caused by the decline in Industrial Systems segment sales. Ordinary income fell 9.8% year on year to 111 million yen while the Toyo Denki Group reported a net loss of 84 million yen for the period under review.

Results by business segment are provided as follows.

#### Transportation Business Segment

Orders received in this segment surpassed estimates identified at the beginning of the period. On a year-onyear basis, however, orders received declined 15.1% to 4,999 million yen. Segment sales climbed 11.2% compared with the corresponding period of the previous fiscal year amounting to 3,865 million yen.

#### Industrial Systems Segment

During the first quarter of the fiscal year under review, the corporate sector adopted a cautious approach toward capital investment. As a result, orders received in this segment declined 19.4% year on year to 3,324 million yen. In similar fashion, sales totaled 2,472 million yen, down 16.9% compared with the corresponding period of the previous fiscal year.

#### Information Systems Segment

Order received surged 43.8% year on year to 637 million yen. Sales on the other hand dropped 24.4% compared with the corresponding period of the previous fiscal year to 267 million yen.

#### 2. Qualitative Information regarding Consolidated Financial Position

Total assets as of August 31, 2008 stood at 35,357 million yen, a decrease of 13 million yen compared with the end of the previous fiscal year. The principal movements were an increase in inventory and a decrease in notes and accounts receivable — trade.

Total liabilities were 22,041 million yen at the end of the period under review. This was 399 million yen higher than March 31, 2008. This was caused by to a variety of factors including a decrease in notes and accounts payable — trade and an increase in borrowings.

Total net assets stood at 13,316 million yen as of August 31, 2008, a decrease of 412 million yen

compared with the previous fiscal year-end. In addition to the payment of dividends, this was due to such factors as a change in the Company's scope of consolidation.

### 3. Qualitative Information regarding Forecasts of Consolidated Business Results

There are no changes to the forecasts released on July 14, 2008.

# 4. Other

- Transfer of major subsidiaries during the period (transfers of specified subsidiaries accompanied by changes in the scope of consolidation) Number of consolidated subsidiary companies: Six TOYO DENKI USA, INC. was included in the Company's scope of consolidation from the first quarter of the fiscal year ending May 31, 2009 due to its growing importance.
- (2) Application of the simplified method of accounting and accounting methods specific to the preparation of quarterly consolidated financial statements:

Application of the simplified method of accounting (The method for calculating corporate, local and enterprise taxes, deferred tax assets and deferred tax liabilities)

In computing the amount of corporate, local, and enterprise taxes payable, the Company undertook certain additions and subtractions in conjunction with tax deductions with regard to important items only.

In determining the collectability of deferred tax assets, the same forecasts of results as well as the tax planning method used in the previous fiscal year are applied in the event that no significant change in operating and other conditions as well as temporary differences are confirmed since the end of the previous fiscal year.

(3) Changes in accounting principles, procedures, and methods of presentation relating to the preparation of quarterly consolidated financial statements:

Changes in accordance with revisions to accounting standards and related practices

(Application of the Accounting Standard for Quarterly Financial Reporting and related Guidance)

Effective from the first quarter of the fiscal year ending May 31, 2009, Toyo Denki Seizo K.K. has applied the Accounting Standard for Quarterly Financial Reporting (Financial Accounting Standard No. 12 issued by the Accounting Standards Board of Japan on March 14, 2007). The company has also applied the Guidance on the Accounting Standard for Quarterly Financial Reporting (Financial Accounting Standard Implementation Guidance No. 14 issued by the Accounting Standards Board of Japan on March 14, 2007). Furthermore, the Company prepares quarterly consolidated financial statements in accordance with the Regulations on Quarterly Consolidated Financial Statements.

#### (Application of the Accounting Standard for the Measurement of Inventories)

Effective from the first quarter of the fiscal year ending May 31, 2009, Toyo Denki Seizo K.K. has applied the Accounting Standard for the Measurement of Inventories (Financial Accounting Standard No. 9 issued by the Accounting Standards Board of Japan on July 5, 2006). Accordingly, the Company has changed the valuation basis for inventories from the previously used cost method to the cost method which writes down the book value of inventories based on the deterioration in profitability.

Compared with the previous method applied in the measurement of inventories, the application of this standard has resulted in a five million yen decrease in operating income, ordinary income and net income before taxes.

#### (Application of the Accounting Standard for Lease Transactions and related Guidance)

Effective from the first quarter of the fiscal year ending May 31, 2009, Toyo Denki Seizo K.K. implemented the early adoption of the Accounting Standard for lease Transactions (Financial Accounting

Standard No. 13 issued by the Accounting Standards Board of Japan on June 17, 1993 and last amended on March 30, 2007) and the Guidance on the Accounting Standard for lease Transactions (Financial Accounting Standard Implementation Guidance No. 16 issued by the Accounting Standards Board of Japan on January 18, 1994 and last amended on March 30, 2007). Previously, finance lease transactions that did not transfer ownership had historically been accounted for as operating leases. As a result of the change in accounting standard, finance lease transactions that do not transfer ownership are now treated as sales and purchase transactions.

In addition, lease assets are depreciated on a straight-line basis with the lease periods as their useful lives and no residual value.

With regard to finance lease transactions that do not transfer ownership that occurred prior to the beginning of the fiscal year to which they are applied, the accounting treatment applicable to operating lease transactions will continue to apply.

Taking the aforementioned into consideration, the impact on operating income, ordinary income and net income before taxes is immaterial.

# 5. Quarterly Consolidated Financial Accounts

Toyo Denki Seizo K.K. has applied the Accounting Standard for Quarterly Financial Reporting (Financial Accounting Standard No. 12 issued by the Accounting Standards Board of Japan) and the Guidance on Accounting Standard for Quarterly Financial Reporting (Financial Accounting Standard Implementation Guidance No. 14 issued by the Accounting Standards Board of Japan) from the fiscal year ending May 31, 2009. Furthermore, the Company prepares quarterly consolidated financial statements in accordance with the Regulations on Quarterly Consolidated Financial Statements.
